Escape Losing Lives in Crossing Stream.

Criminal Neglect in Building Roads—Neway Letter From Dry Ridge.

Dry Ridge, Jan. 22.—Messrs. Billie Johnson and Jim Lamaster came near losing their lives while attempting to cross a small stream near the Johnson home just after dark last Wednesday evening. The water was high, but not past fording, and the accident was caused by the floating ice striking the horse and causing it to turn down stream so suddenly that the buggy was upset. The top broke loose from the buggy as it fell, but saved the men's lives, as otherwise they could not have gotten out of the buggy and would have drowned in a short time. Mr. Lamaster caught an over-hanging limb of a tree and climbed up the foot high son managed somehow to swim and wade through the darkness and floating ice until he, too, got out. Calling to the house for help and lantern, they found the horse and buggy down the stream, but have not seen or heard of the top. Mr. Lamaster, accompanied by his niece, was returning home from the burial of his sister, Mrs. Casey. His niece fearing to cross the stream, was in the house with Mrs. Johnson while the men made the attempt to cross. We were glad, indeed, that the men escaped with only an extremely cold bath, and that their lives were saved.

Dows Embankment, of Course.
I heard an eye witness tell yesterday of seeing Mr. Charles Heffley's wagon loaded with hogs and two horses attached, go over an embankment thirty or thirty-five feet high on the new Floyd Park road, near the home of Mr. Mose Rivers. This accident was caused by one of the horses beginning to balk. Mr. Heffley saw the danger and jumped at once, and it seems little short of a miracle that neither driver, horses, wagon nor hogs were hurt at all. Had it occurred a few yards further back where there is an immense fill, probably fifty feet high, the horse you are driving will keep in the middle of the road and will neither scare, balk nor balk. But it is awful to contemplate what might happen in case of horses being frightened on an auto, or horses backing on some points of these roads. I don't believe that a class of better, finer people live anywhere than in this section mentioned, and that none of them who travel these roads almost daily have been killed by accident, is, indeed, a matter for congratulation. The Jeffersonian called attention to these dangerous places in its roads months ago. So far as I know no attention has been paid to its warning. Perhaps before this year is ended valuable lives will be lost if these roads are not made safer. Let the county spend more of its money and make them safe as well as picturesque.

Horses Die.
Mr. Fred Morsey and Mr. John Drake have each lost a horse since I wrote last. In either case the horses were getting old, but we sympathize with them in the loss.

Hog Killing.
Two of "our folks," as the Farm Journal says, are killing hogs today, Mr. Burline Bridwell and Mr. Crit Drake, which means that half the neighborhood will have fresh sausage by dinner tomorrow. Not so selfish about any of "our folks!"

Clean Farm Paper.
Speaking of the Farm Journal, I see its ad. in The Jeffersonian and want to say that at least half of Dry Ridge take it now and think that no cleaner, better or more helpful paper was ever printed for the same money.

Too Bad To Talk About.
All the changes have been rung on the subject of the cold weather. I

don't like to let it pass without some comment, but it was most too bad to talk about. I hope Kentucky will never see and feel like again.

Mr. and Mrs. Howard Smith and son, Donald, spent Saturday at Veechdale at the home of Mr. Smith's parents.

Mr. and Mrs. Walter Markwell spent Sunday with the latter's grandmother in Jeffersontown.

Miss Lucille and Elizabeth Neel were the guests of Miss Hattie Birdsell Thursday night.

Mrs. Burline Bridwell spent Friday afternoon with Mr. M. G. Boston.

BELOVED

Woman, Mrs. Frances Hoke, Passes Away at Her Home Here.

After a long and useful life, Mrs. Mary Frances Hoke, widow of A. J. Hoke, passed away at her home in Jeffersontown Monday morning, Jan. 22, 1912, at 2 o'clock. Mrs. Hoke was in her seventy-ninth year, and death resulted from infirmities due to old age.

Mrs. Hoke was the daughter of Jefferson Snyder, one of the early settlers in Jefferson county, and was born near Jeffersontown December 11, 1832. She was married May 16, 1850, to A. J. Hoke, who died thirteen years ago. Mrs. Hoke was a devoted Christian, being a consistent member of the Lutheran church here, and lived a most exemplary life. She was loved and respected by all who knew her, and her death cast a gloom over the entire community.

Deceased is survived by nine sons, thirty-three grandchildren and six great-grandchildren, two sisters, Mrs. Alice Seavore, of Shelbyville, Ky., and Mrs. Julia Madden, of Wilsonville. The sons are A. N. Hoke, Louisville; W. S. Hoke, Springfield; M. E. Hoke, Harrods Creek; J. F. Hoke, Indianapolis, Ind.; Thomas, Grege, Meil and Ben Hoke, of Jeffersontown. The funeral services were conducted yesterday afternoon at 2 o'clock at the Jeffersontown Lutheran church by Rev. Wm. L. Burger, after which interment took place in the Jeffersontown cemetery.

GREAT LOSS

Of Potatoes, Etc., On Account of Freeze.

Horse Killed By Electric Car—Between the Pikes and On The Pike.

Between the Pikes and on the Pike, Jan. 22.—This has been one of the hardest winters since in the sixties. Some of our oldest inhabitants say it has been the coldest winter they ever experienced. We remember the Ohio river was frozen so teams could cross on the ice during the war. We do not recall the exact year.

Hundreds of barrels of potatoes have frozen during this long cold spell and some of us have lost most of our canned fruit. Some who had their stored in cellars, that never were known to freeze, have lost quite a lot. It has been impossible to keep them right by the fire much, so to keep the fruit and vegetables from freezing. The last few days have been delightful and we certainly appreciate good weather when we can get it. It has been said "cold winters are always followed by healthy summers and the crops." We hope the saying may prove true the coming summer.

Horse Killed By Car.
John Hise lost a horse and had his wagon badly damaged by the cars on Hardtown road recently. He was on his way home from market and stopped at Groves' in warm. His horse started with the wagon for home and got as far as Greenburg when the car struck them. The horse had both hind legs broken and had to be killed, and the wagon was so badly damaged it had to be left at the scene on by. A lot of groceries were also damaged.

Praises The Jeffersonian.
The Jeffersonian of January 11 was one of the best numbers we have read for some time. It was full of a great deal, for it always a good newsy paper, and the editorials are also good, but read the editor's "Our platform for the New Year." It is certainly eloquent, and you may rest assured The Jeffersonian will do just what it has undertaken to do. It is only a few years old, yet every one can see an improved condition in its home town and the county at large. There will be something doing the present New Year and don't you forget it.

Mr. Robert Hansbrough spent several days with his mother and brother since New Year. We all enjoyed his stay immensely, but he felt the cold so keenly we believe he was glad to get back to the city.

Misses Dacia and Lou Paris were recent guests of Mrs. L. V. Hansbrough.

Humor says we are to have a wedding in our "borough" in the near future, which will surprise and shock all of us. Wonder who it is? Surely not—? I am afraid to mention names, I might get a whipping.

Mr. C. M. Fisher has been quite ill for over two weeks. He is suffering from general debility, but is better at this writing.

Mr. J. F. Farmer, of Louisville, spent Saturday night with his sister and dined Sunday with Mrs. Hansbrough and McClure. His little son, Everett, has been quite ill for some time, but is about well at this writing.

Mr. Everett Stansbury has been a great sufferer for several weeks with rheumatism. He has an attack every winter which generally lasts till spring. He is improving, so we hope will soon be out again.

There is not much sickness in the county and very little news. Rev. G. A. Blair, a former Kentucky boy, but who has been in San Francisco, Cal. for several years, had an attack of apoplexy some time since, and has been compelled to give up his charge in San Francisco, and move twenty miles in the country. His relatives and friends in Kentucky will be pained to hear of his illness.

COMMERCIAL CLUB

Organized at Middletown Monday—Much Work Planned.

A large number of the citizens of Middletown and vicinity met Monday night and organized a Commercial Club. Henry Frank was elected president, E. K. Pennebaker and Wm. Cox vice-presidents, and T. C. Gaines, secretary and treasurer. Twenty directors were elected as follows:

Ed. Cox, Henry Frank, Will Cox, Dr. Silas Wetherby, Luke Wetherby, Lawrence Cox, Dr. Sam Wetherby, George H. Cox, E. K. Pennebaker, Clark McDonald, Ben Coleman, James J. Douglas, J. W. Crton, James Blankenbaker, O. R. Rine, C. Russell, H. Phillips, Ward Jones, William Griesler, Dr. L. D. Mason. It is said that the club has about fifty members to start with and that there are expected to join in a short time. Among the things that the club will work on is better mail service, better rail way facilities, a fire protection department, cold storage plant, lighting plant, etc.

Much interest is being manifested in the new organization, and it is believed that much good will be accomplished. The Jeffersonian hopes to congratulate the enterprising citizens of our neighboring little city for their public spirit and offer every assistance within our power.

BERRY GROWERS

Of Middletown Section Organize And Will Pool Crop This Year.

On last Wednesday a number of the berry growers of the Middletown section of Jefferson county met at the Bank of Middletown and organized a Berry Growers Association. Mr. L. P. Weatherby was elected president and Mr. C. E. Benmroth was temporary secretary.

Last year a similar organization of the kind was very successful, but this year the growers propose to have a larger and stronger organization. About fifty acres of berries have already been engaged to go in the pool, and other growers are urged to join the organization at once. The plan is to adopt the standard strawberry crate and ship anywhere.

The next meeting of the association will be held at the bank Monday, February 5th.

OLD SOL

Welcome After The Cold Weather.

Happenings of Interest in And Around the Smyrna Neighborhood.

Smyrna, Jan. 22.—Every body is glad to see the weather moderating and we believe, with the exception of a few frost bitten fingers and toes and the loss of some potatoes and canned goods, also a large quantity of fuel consumed, Smyrna has passed through the severe spell of cold weather and is again welcoming the soothing effect of the mellow rays of old Sol.

Will Remove to Harbin.

Boy Nett and family will soon move to Harbin county where he will engage in business with his father. We regret to lose such a worthy man from our midst, but we predict a prosperous business and many friends for him wherever he goes, for he possesses that enviable disposition of having a kind word for every one and being ever ready to assist a neighbor in any way he can.

FAIR COMPANY

Will Increase Stock To \$10,000 and Take in New Stock holders.

The Jefferson County Fair Company is working on a proposition to increase its capital stock from \$5,000 to \$10,000 and take in twenty new stockholders. At a meeting held last Saturday at Russell Dr. H. P. Rivers and Mr. Charles Hamming, who were named on a committee to solicit subscriptions for stock, reported that twenty-two persons had expressed a willingness to buy stock. It is said that only one share will be sold to one person and that only twenty shares will be sold.

The plan is started for the purpose of securing the cooperation of more people and to improve the Jefferson county fair, which already has the reputation of being one of the best in the State. The directors, however, are taking a step in the right direction and it is hoped that it will result in the good that they intend it should.

A meeting of the officers and directors will be held today, when final preparations will be made for the organization of the new company.

County people coming to town on Sunday morning can get the Sunday Courier-Journal at Fannell Bros.

THE MOUNTAINS

WANT K. P. A. MEETING.

At a meeting of the executive com-
mittee of the Commercial Club, which
was held Monday night, it was decid-
ed to extend to the Kentucky Press
Association an unequalled in Jack-
son next summer. Every member
present appeared very enthusiastic
over the chances of securing this
great meeting of Kentucky boosters
and say that they will spend the Ken-
tucky pennies the time of their lives.
—Jackson Times.

Since the press of the State and
nation has often misrepresented the
people of the mountains it might be
well to hold the next meeting of the
K. P. A. at Jackson. The members
then could go home and give their
readers a true story of the mountain
people of Kentucky. The Jeffersonian
hopes the Executive Committee
will look favorably upon the invita-
tion of the Jackson Commercial Club.

OWINGS VOTES FOR COUNTY UNIT BILL.

Hon. L. C. Owings, representative
in the Legislature from Jefferson
county, voted for the extension of
the county unit bill which passed the
house one day last week. Mr.
Owings in an address said that while
he personally opposed the bill, it was
a party platform pledge and he
thought all Democrats should support
it, realizing too that a majority of
the people of the state desired such a
bill. The friends of Mr. Owings here
have been speaking of his action in
the most favorable terms and they
admire him for the way he has sacri-
ficed his own personal preferences
that the will of the people might be
satisfied. By way of parenthesis the
Rev. Virgil Elgin, in the course of
his sermon at the Jeffersontown
Methodist church Sunday morning,
paid Mr. Owings a high tribute and
complimented him for voting for
the county unit bill. Mr. Owings is
taking a prominent part in the work-
ings of the Legislature and is getting
to the point where the others "sit up
and take notice" when he has any-
thing to say or do.

ENVIRONMENT MAKES GOOD OR BAD CHARACTER.

The Rev. Virgil Elgin, pastor of
the Jeffersontown Methodist church,
preached a sermon Sunday morning
that it would have been well for a
larger congregation to have heard.
He spoke of children inheriting
characteristics of their parents, as
well as the influences of this life that
help to mold the characters of young
people. Among the things that he
said that struck us more forcibly
than anything else was the fact that
the environment of a town or com-
munity has a great deal to do with
the life and character of the people.
He spoke of college towns and the
way the citizens of these towns as-
pire more to attain the higher life

METHODIST

Minister Praises the Heroism of
Catholic Priest—Rev. Hum-
mel's Address.

At the mid-year meeting of the
Methodist Conference Board of Mis-
sions held at the Broadway Method-
ist church in Louisville last week,
Rev. Geo. W. Hummel, born and
reared in Jeffersontown, but now
pastor of the Methodist church at
Russellville, spoke on the life and
work of Father Joseph Damier, the
noted and beloved Roman Catholic
missionary to the leper colony at
Molokai, Hawaii. Father Damier,
young and full of the love of Jesus
Christ, gave his life to the cause by
going into the leper colony, taking
the disease and dying, simply to
spread the Gospel among the dying
natives of Hawaii.

In speaking of Father Damier the
Rev. Mr. Hummel said: "his life was
one of splendid heroism and service."
Referring to the fact that addresses
on David Livingston and "Chinese"
Gordon also were on the program,
Mr. Hummel said: "Sincerely our Roman
Catholic brother is the peer of any."

Mr. Hummel is fast going into
one of the leading members of the
Methodist church, and his many
friends and relatives here are proud
of him and the great work he is
doing.

OUR CHOICE FOR PRESIDENT

HON. HENRY WATTERSON,
of Jeffersontown, Ky.

The Jeffersonian wants to be the first newspaper in the State to come out for our own *Marion Hearl* for the Democratic Nominee for President. There is not a man in the whole country more versed in the nation's activities than he, and as he has always fought for the things he believed to be right and in most cases was right; we are for him for anything he will accept. Not only because he is a resident of Jeffersontown are we for him, but because he is probably the best known Democrat and best qualified man in the country for the place. "Hurrah for Watterson" sounds good to us.

BOOM WATTERSON

Noted Editor Invited To Address
General Assembly—Spoken
Of For President.

Hon. Henry Watterson, editor of the Louisville Courier-Journal, was invited to address the Kentucky General Assembly in the following resolution which was passed in the House of Representatives Tuesday:

"Whereas, Henry Watterson, editor of the Courier-Journal, is the greatest journalist in America today and has done a great deal to advance the cause of Democracy in the State of Kentucky and in the nation and whose editorials have been read with interest by the American people from coast to coast, he is invited to address this General Assembly at some future date, to be fixed by him, and that a committee of two be appointed to notify the distinguished journalist of this invitation."

Named For President.

Mr. Polin said he hardly thought it necessary to speak to his resolution. He said Mr. Watterson had always labored to the people's rights and for the cause of the great common people. He said invitations had been issued to other prospective presidential candidates and that there was no one Kentuckian would more delight to honor and rally around as the Democratic candidate for president than the Sage of Jeffersontown.

The resolution was seconded by Representative G. L. Drury, of Union county who said that it was time for all Kentuckians to get behind a real Democrat for President and support their most illustrious citizen, Henry Watterson. The resolution was adopted with a whoop and amid great applause.

A similar resolution was adopted in the Senate.

On account of Mr. Watterson suffering at present with a painful carbuncle and planning to go to Florida soon, he has declined the invitation to speak to the law makers.

FISCAL COURT

To Be Abolished If Atherton Bills Passes—Legislature Notes.

Peter Lee Atherton, of Louisville, yesterday introduced in the house of Representatives his bill to deal with the Fiscal Court of Jefferson County as at present constituted and creating in its stead a commission composed of the County Judge and three persons to be elected from the county at large, one of whom must reside in the county outside of the city.

No justice of the peace elected in 1909 will be disturbed in any way, either as justice of the peace or member of the Fiscal Court during the term of office for which he was elected. The three County Commissioners and County Judge will constitute the new Fiscal Court, and will be elected at the annual election in November, 1913, and sworn into office January 1, 1914. After that time, under the law, the magistrates would be elected and perform their functions as Justice of the Peace just as they do now, but would not be members of the Fiscal Court.

The new Fiscal Court would have charge of the army and the jail, and in fact, all other institutions managed by the present Fiscal Court, as well as the control of the money used in building and repairing of roads and bridges in Jefferson county.

Representatives Luther C. Owings, of Jefferson county and Adam Spahn, of the Forty-sixth district of Louisville, divide the honor in the Fifth district delegation to the Legislature of getting the first bills passed. Representative Owings secured the passage of his measure providing for the compulsory destruction of the carcasses of swine dying of cholera and Representative Spahn followed right after by "getting by" in the House his bill providing that warrants issued by Fiscal Courts bear interest at 5 per cent, and payment is refused because of lack of funds in the county treasuries.

The bill of Representative L. C. Owings, of Jefferson county, creating the office of stenographer to the Commonwealth's Attorney, of Jefferson county was passed by a vote of 5 to 2. The salary is \$1,200 a year, payable out of the county levy.

Adam Spahn's bill enabling the County Clerk of Jefferson to employ a deputy for the juvenile Court division, was passed by a vote of 80 to 3. L. C. Owings, Jefferson county, reported favorably a bill appropriating \$38,000 for new buildings at State Fair grounds in Louisville.

He has two sisters and his mother living in Louisville, one sister living at 822 E. Washington street and the other one and mother at 214 S. Henry street.

He enjoyed his life very much the three years he was gone and was very much thought of by his fellow comrades there. They were all very sorry to see him leave and they hope to see him again. He was not only well thought of there, but abroad too. B. B. L.

FIRE! FIRE!

Was the Cry Here Monday—

Conflagrations Reported Elsewhere.

About 11 o'clock Monday morning Frank Panelli was seen running by the Jeffersonian with his hand fire extinguisher crying "fire, fire!" He was soon joined by Dr. J. W. Wells and a member of The Jeffersonian force with two more fire extinguishers, who rushed to the home of Rev. Richard Reynolds, pastor of the Jeffersontown Colored Baptist church, on Shelby street, and found that his meat house had almost been destroyed by fire. The extinguishers were immediately put into use and the fire was soon extinguished. A great deal of the meat was saved, the fire had gained such headway that it could not be extinguished. The dwelling, only a few feet from the burning smoke house, was saved.

Early Monday morning the Rev. Reynolds built a fire in the meat house to smoke his meat and left his wife to watch it. She was busy about her household and the fire had almost destroyed the building before she discovered it. The loss will amount to about \$200.

Fire Extinguishers Needed.

It was the expressed opinion of many that the residents of Jefferson should possess one of the hand fire extinguishers since they came in so handy when there is a fire and since Frank Panelli is selling them at cost price—\$5.00.

All that is left of the historic structure is a pile of rubble. The place was at one time used by the authorities of Jefferson county as a pest-house during an epidemic of smallpox.

POULTRY SHOW

Citizens Telephone Lines On Bardstown Road With Jeffersontown Exchange.

It was announced this week by Mr. E. W. Elliott, president of the Citizens (Cumberland) Telephone Company, with an exchange at Ashville on the Bardstown road, that within the next day or two that exchange will be connected with the Cumberland exchange in Jeffersontown. When this is done subscribers in both exchanges will have free service with long distance at either place.

This step is taken in order to save trouble of sending the messages through Louisville from one exchange to another, and will be the means of giving more service to subscribers at no more cost. The Citizens Company now has about 125 subscribers, but it is said that there will be at least 150 within the next few weeks, as the business is growing rapidly.

WILL CONNECT

Citizens Telephone Lines On Bardstown Road With Jeffersontown Exchange.

It was announced this week by Mr. E. W. Elliott, president of the Citizens (Cumberland) Telephone Company, with an exchange at Ashville on the Bardstown road, that within the next day or two that exchange will be connected with the Cumberland exchange in Jeffersontown. When this is done subscribers in both exchanges will have free service with long distance at either place.

This step is taken in order to save trouble of sending the messages through Louisville from one exchange to another, and will be the means of giving more service to subscribers at no more cost. The Citizens Company now has about 125 subscribers, but it is said that there will be at least 150 within the next few weeks, as the business is growing rapidly.

WOODROW WILSON GREAT DEMOCRAT

Judge Stringer of Illinois Recognizes Him as the Logical Leader of the Party.

IS FITTED FOR WHITE HOUSE

Statesman, Scholar and Proved Practical Executive, New Jersey Statesman Would Be Ideal Occupant of the Presidential Chair.

BY LAWRENCE B. STRINGER,
Democratic Candidate for the U. S. Senate from Illinois Against
Carter.

Before meeting Gov. Wilson, I was somewhat prejudiced in his favor, from having read many of his productions and having admired the great comprehensive grasp of economic situations which pervades all of his political utterances and writings.

Still while predisposed in his favor, until I had personally met and conversed with him, I was not convinced of his availability as a candidate for President.

Since meeting Gov. Wilson, however, all doubt in that regard, in my own mind, has been removed. Gov. Wilson is presidential timber of the exact kind and quality required at the present time. To begin with he is an intellectual giant, with a broad comprehensive grasp of every public situation. Throughout the east, he is universally regarded as the greatest American living today. Even in private conversation, his intellectual facilities in every sentence he utters, he has a logical and analytical mind. His language is simple, easily understood, yet definite, incisive and convincing. He has been a student of political economy since his boyhood, has written varied books upon the subject and is conceded to be the highest authority upon theories of government in the country today. While our presidents have generally been men of patriotic impulses, honest and conscientious, still few of them have been great intellectually. Thomas Jefferson was an exception to this rule. Woodrow Wilson, if elected president, by reason of his instincts, characteristics, training, fearlessness, patriotism, faith in the people and extraordinary intellectual power would indeed be a second Thomas Jefferson.

Ideal Chief Executive of State.

As governor of New Jersey, he has given that state a practical business administration, so conceded by all. He has shown himself to be peculiarly fitted for the executive office along the most practical lines. In meeting him, you are impressed with this fact. The schoolmaster is not in the least in evidence. He is plain, matter of fact, and his conversation is not pedantic or pedagogue, but direct, forceful and earnest.

Above all he is a man of the people. He was born with no silver spoon in his mouth. He is not a man of means or wealth. He is easily approachable. No dignified hedgehog him. He resides in a very modest home at Princeton. On knocking at his door, no servant, liveried or otherwise, met us at the portals. It was the governor himself who opened the door for us, welcomed us in, took our hats and wraps and laid them aside, unbothered on his library, made us feel at home and talked to us neighbors who had dropped in for a casual call. There are no frills nor pretensions about him. He is essentially Jeffersonian. As governor of New Jersey, he has fought for the plain people and they love him. In doing so, he has antagonized the interests. He knows it, but doesn't care. He has faith in the people and takes them into his confidence.

Sense of Duty Supreme.

I also found him to be a man of positive convictions with the courage of the same. He is fearless in his expressions of opinions. If they do not agree with your opinion, he is sorry, but he does not trim his views to conform with yours. His sense of duty is supreme. He would not change his views, unless convinced that he was wrong, even though it might cost him his position. He is not a trimmer. He is not a politician, but is a statesman, in all that word implies. He abhors machine politics and understands its methods. He does nothing behind closed doors. Everything with him is in the open and he has no political or public secrets. What he says to you, he is willing the world should know. He is the soul of integrity and honor and he stands today as the one great champion of progressive ideas of government in state and nation. If elected president, no machine leaders, bosses or fractions will control or influence him. His sense of duty alone will actuate him.

Altogether I was exceedingly well impressed with Gov. Wilson, not only as a statesman, as an executive and as a possible, if not a probable, future president. He seems to combine in one personality, great intellectuality, simplicity, modesty, fearlessness in the discharge of duty, sterling character, honest motives, high sense of duty, executive ability, energy, enthusiasm, rugged honesty, practicality and Jeffersonian democracy. And what more that more would anyone want?

WEST STRONG FOR WOODROW WILSON

Rank and File of the Party in That Great Section Recognize His Worth.

HAS REDEEMED HIS PLEDGES

His Actions as Chief Executive of the State of New Jersey Show His Political Ability and Integrity—Loyal to People.

BY CHARLES G. HEIFNER,
Chairman of Democratic State Committee of Washington.

I know pretty accurately the sentiment of the rank and file of the democrats of the West. They are strongly in favor of Woodrow Wilson for our Presidential nominee next year. I feel sure that this statement will hold good in every state west of the Mississippi River. I recently spent some time in the east on business that brought me in touch with a number of influential business men. Incidentally I have had occasion to discuss political conditions with these men and I am glad to say that regardless of past party affiliations, I find them strongly in favor of Governor Wilson. It is not difficult to ascertain the cause of this fact and the confidence on the part of farmers, wage workers and business men in the political ability and integrity of Woodrow Wilson. He kept the faith. A year ago while a candidate for Governor of New Jersey he made no pledges and promises to the people of that trust ridden state. The people took him at his word and elected him, the first democrat to be elected Governor in that state in sixteen years, and to the gratifying amazement of all honest men and to the utter consternation of the political tricksters he and his loyal supporters in the legislature proceeded to enact laws and carry out plans in exact conformity with his pledged word to the people. Among the plain people everywhere he has come to be regarded as a man whose performances live up to his promises. Just such a man is imperatively needed as the chief executive of the United States. Having demonstrated his practical capacity to accomplish that task, his own state, though one branch of the legislature was of opposite political faith, it is not surprising that there is such an overwhelming demand for his elevation to the White House.

Young Men of the Country May Well Look Up to Him as Master of His Calling.

AS EDUCATOR AND EXECUTIVE

In Particular, His Record as the Governor of New Jersey Shows Him Worthy of Highest Position in the Gift of the People.

It would be hard to find a school boy over the age of twelve years who has not heard of the name of Woodrow Wilson.

Woodrow Wilson was born in Staunton, Virginia, December 28th, 1856. His father was the Rev. Joseph R. Wilson and one of the most influential churchmen of the south. At the age of two years his father moved to Augusta, Georgia, where he took charge of one of the largest and most influential churches in the south. Augusta was then a city of about 15,000 inhabitants, and it was here that the boyhood of the future governor of New Jersey and president of Princeton was spent.

Rev. Wilson moved to Columbia, South Carolina, in the Autumn of 1870 and became a teacher in Southern Theological Seminary while position he held for four years. Woodrow continued to attend school, but most of his training was under the direct supervision of his father, and in spite of his late years to start at books he soon qualified for college and at seventeen he was sent to Davidson College, North Carolina.

Princeton Training Valuable.

In the autumn of 1875 he entered Princeton, where he graduated with the class of 1879. His going north to college was fortunate, for it gave him at an impressionable age an opportunity to understand the north, as well as the southern, point of view.

In the autumn of 1885 he was called to the chair of history and political economy in Bryn Mawr College. This he held for three years, when he was called to a similar position in Wesleyan University. He remained there two years and was called to his alma mater, Princeton, as professor of jurisprudence and political economy. Later in 1890 he was elected president of Princeton—the second oldest university in the United States. He took his Ph. D. degree on examination in 1885, submitting as his thesis "Congressional Government." This is considered the highest degree conferred by institutions of learning.

When Dr. Wilson came to the presidency of Princeton he had been known as a scholar, author and public speaker, but he was untested as an executive.

In his presidential office he carried out the ideas of leadership which he pronounced in his first book, and has held ever since, in office and out of office. He proposed something at Princeton that was a radical change from the old way; it was the complete reorganization of the university in such a way as to bring into daily communication and companionship representatives of all classes and of the faculty. The proposal was made in the tradition of Princeton, for it lent toward breaking up the self-selective clubs. "It sounded a startling note of democracy and pointed out broad ways by which the youth of the country could be brought up for the service of the country."

Young Men Look Up to Him.

Woodrow Wilson has been an inspiration to many young men who have looked up to him as a master of his calling—always helpful to others as individuals and as a body politic. He copies after no one and individual thought is traceable in every essay and book that he wrote, he always regarded of the rights of others. The reforms he has inaugurated since he has been governor of New Jersey—probably the worst corporation-ridden state in the union—has put him prominently before the world. All over the country thoughtful men are writing and saying that he will be the democratic nominee for the presidency when the convention convenes next summer. He is by nature and adaptation the fittest man for that office to be found in the United States.

Persons having sales of real estate, live stock, or farm products, will confer a favor by reporting same for this column. Call us over either phone.

JOSEPH BISIG will sell at auction his entire herd of dairy stock, including milk cows and dairy outfit, and several head of rook horses and mules, on Tuesday, January 30, at 10 a. m., at his residence on the Brownboro road. See advertisement in this issue.

A WAVE of hog cholera seems to be sweeping over Kentucky, and the disease appears in its most fatal form. While its ravages are worst in Western Kentucky than elsewhere in the state, the Blue Grass is not exempt. There is much death among the hogs here, and thousands of hogs have been vaccinated. Shelby News.

OFTEN MANURE or wood ashes may be seen piled around the base of the fruit trees. These are good materials, but this method of application is wrong. The roots of aged apple trees are all over the orchard. They reach out beyond the ends of the limbs in every case. And the feeder roots are not at the body of the tree but out on all sides on the firmer roots. So out here as far as the branches go is where to spread manure and ashes.

JERRY MOORE, a fifteen-year-old boy living in South Carolina, actually produced 2281 bushels of corn on one acre of land. In another column of this paper will be found an "ad" for this same corn, which is sold by A. L. Campbell, Pleasure Ridge Park, Ky., who will be glad to quote prices, etc. There is on display at Taylor & Thompson's store twelve ears of this corn that Mr. Campbell raised on three stalks. While here Mr. Campbell showed the News a letter from Horace W. Moreman, National Chairman of the Boys' Corn Raising Contests, in which he recommends the use of this corn by clubs wishing to produce the largest yield. Shelby News.

J. L. SIMCOE, of Buemel, and Arrington Johnson left Louisville for Los Angeles, Cal., on the night of January 15th with a car load of as finely bred saddle horses as ever left Kentucky. R. E. Gillis, to whom the horses are being sent, was advised by a New York friend to get Mr. Simcoe to select his stock for him. Mr. Simcoe has had wide experience in breeding horses and Mr. Gillis is to be congratulated in getting him to select his string.

In reporting the shipment a writer in Farmers Home Journal says: "Among those selected were: Dolly Rex, a ten year old chestnut mare bred by Rex McDonald, 883, 1st dam Lady Varden by Diamond Denmark. This mare is a full sister to Lady Johnson 4279, that Mr. Simcoe has farmed to Judge Thuan of Springfield, Ky., at \$200 per year for three years, along with some other good mares. Another selected was an unusually handsome filly by Golden King out of a mare by Red Cloud. This filly was purchased from Mr. J. Gano Johnson, of Mt. Sterling, Ky., along with the famous colt "Peter Rabbit" registered as California Golden. This colt is also by Mr. Johnson's famous colt, King of the South. Mr. Johnson registered this colt as one of the best he has bred. Two exceptionally good five year old geldings were included in the shipment as was Mr. Simcoe's coming three year old stallion "King of All," by Golden King, 1st dam Lady Johnson by Rex McDonald. As this colt's breeding would indicate he is one of the best youngsters that ever left Kentucky. Nothing could have induced Mr. Simcoe to part with him, except that he has farmed out, as before stated, most of his good mares and has the good horse bred by him, a dam of the best of the stud. I was familiar with all of these horses, and took occasion to look them over after they were loaded in the car, which was as "snug" as it could be made by the shippers and the Wells Fargo Express Company.

"Mr. Gillis is to be congratulated not only upon securing such a shipment but in securing the services of Mr. Simcoe, who has bred saddle horses for 35 years and practically all of his horses trace on the maternal side to a mare he owned when he began breeding."

WASHINGTON, D. C., Jan. 14.—To promote the development of the dairy and poultry industries along the Southern Railway in Kentucky, Indiana and Illinois, the Southern Railway Company announces the appointment, effective January 30, of Mr. Carlton Ball as Assistant

Dairy and Poultry Agent with headquarters at Western Agency, Land and Industrial Department, Chemical Building, St. Louis, Mo.

Mr. Ball, who is a graduate of the Kentucky Agricultural College, will devote his entire time to advising dairymen and poultrymen along the St. Louis-Louisville lines as to different problems that come up in their work. Mr. Ball has had much practical experience and is a specialist in dairy and poultry husbandry. Mr. Ball's services will be free to all interested in poultry and dairying along the St. Louis-Louisville lines.

Announcement is made from the offices of the Southern Railway that beginning February 1 the Southern will operate a specially equipped dairy car on its system for the purpose of diffusing scientific knowledge concerning dairy matters. It will be in charge of Dr. C. M. Morgan, of Washington, the Southern's dairy agent and will carry three lecturers, who will give stereoscopic talks and demonstrations.

The Dairy Special is fitted up with a complete farm dairy, every piece of machinery and apparatus necessary to the economical production of milk, cream and butter having been installed under the direction of Dr. Morgan. There will be a separator, churns, testers, sterilizer, Pasteurizing apparatus and exhibits of various kinds of improved machinery for dairying. On the walls of the car will be charts and large views dealing with dairy subjects, showing the fundamental principles of breeding dairy types, feeding animals, the care of dairy cattle and pictures of famous animals in the dairy world.

Advance schedules of the stops will be prepared and full advertisement given the train in the towns at which lectures and demonstrations are to take place. It is expected that large crowds will be present at these stops and everything is being done to give thorough attention to every detail of the work.

Every man interested in dairying in any way should by all means be present at these free lectures and demonstrations, to listen to the talks, to see the improved machinery and labor-saving devices and to secure advice on any problem connected with the dairy industry.

TEMPER.

There is a great irritation we have at times. It is a great passion; it is partly a habit; causes great disturbance and the worst thing a human can have. Only at times it is a state of excitement. It will bring a man to his knees, and he will be mad as a hatter. We care not what it is, when that passion is at that often we do a vile deed, which afterward repent. Men have many times committed crimes and caused an infamous name to family, and persons look upon them with a haughty eye; it is caused by temper. They have the responsibility to take inward all for one's deed of misfortune. Every man has this irritation; some can control it; others can not (then) and look not for the future and past an unfitted reputation on his kinsman for ever.

Sir Isaac Newton had a fine character to depend upon. His dog made his manuscripts, which he studied out for all his life, a heap of ashes by jumping upon his table and upset the candle and immediately set fire to his writings. When Newton came home he only petted the dog, but grieved inwardly. There is something to learn by this—it is to control our mind or temper.

President Jackson in a different way had a temper, a man of great intellect. (Rich men as well as those in poverty.) He had a temper to defend himself. He had no "cultivation" to make his brain resist.

We have taken our thoughts only to avenge others? Temper has a greater part of the brain. He does not care to know it. He only argues the more after told. Kind people, learn to make the temper to obey you.

Men, temper is the worst thing on earth. It has an influence over you and in a while it is as strong as whisky. The brain is ours and if we can not control our temper, it will serve them. Temper should be controlled to the utmost. Children have a temper and elders ought to teach them and "cultivate" them. There is not a person so great as one who can control their temper.

POWHATAN

Farms At Pewee Valley Home of Some of Kentucky's Best Horses.

Powhatan Farms, conveniently located in beautiful Pewee Valley, Ky., is the home of some of the best horses in the Blue Grass State, says the Farmers Home Journal.

It is at this farm where the royally bred sensational going Glenworth 218 has his court. As is well known, this horse is by Highland Gay 730, 1st dam Julia Denmark 624, by Forest Denmark. He has sired many of the good show horses that Kentucky has produced in recent years. This stallion is by the noted sire of show horses, Rex Peavine, and has for his 1st dam Lady Preston 4265 by Preston 922. This makes King O'The May a full brother to Diana O'The Lea that Mr. Woodbridge sold to Mr. Lawrence Jones as a three-year old for \$5,000. She proved one of the best show mares that ever carried pigskin, and this colt has the same sensational way of going, not to mention his faultless conformation, which without doubt is superior to that of his sister.

Mr. Woodbridge states that Mr. J. Gano Johnson, of Mt. Sterling, Ky., has booked several mares to King O'The May. A yearling stud colt that is very highly priced at Powhatan Farms is a big handsome chestnut by Glenworth out of Sue Chief, the daughter of Star of Lebanon. Mr. Woodbridge has a number of other class young things, some finished products that have made records in the show rings, and fifteen brood mares. Among the latter are Gately Girl, Lady Preston, Sue Chief and other noted matrons. Eugene Gay, who has been with Allie Jones for many years, will handle the five gaited horses at Powhatan Farms. He is an adept handler of wide experience, and Mr. Woodbridge hopes to put Powhatan Farms higher up in the ranks than ever as headquarters for the highest class of Kentucky Saddle horses.

Declined in Verse.

Judge Charles R. McDowell, the well known Danville politician, who declined the place of First Assistant Attorney General, offered him by Attorney General James Garfield, wrote the following, which was published in the Louisville Times, in declining to accept the position offered him:

"Man that is born in Kentucky is of few days and full of ills. He starteth early in search of office and the diligent one getteth there. He buildeth up for himself a Machine (at first a little one, like a model). And he runneth his Machine over all who putteth themselves in his way. He waxeth fat in office and the spoils incident thereto, until by reason of His excess and debauch the public trough he loseth his cunning. He waxeth insolent and intolerant and for a while putteth it over on the great Common people, but by and by the great common people rise up and smite him hip and thigh.

He buildeth the govt. up, he findeth his tires punctured and unruly members in his Machine. He trieth to force the going and findeth his Machine in the junk heap. He lieth low for a time and trieth to come back, but verily too many are onto his curves. Mightily he striveth, planneth and contriveth, but at last he findeth Out he is a back number—that he won't pass on a bargain counter. His thoughts are as gall and wormwood and eat his innards like canker, but too late—too late.

Thereafter he ceth out an existence—he focketh himself—he is lost. Score of those who once did the bidding unquestionably. He hath no place among men and bime-by he welcomes the long journey from which no traveler returns.

He riseth up in the morning, flourisheth like a ragweed, but the frosts of Public wrath are upon him, and like the ragweed he rot and withereth up and cometh nought.

Old Resident Dead.

William Wheeler, aged eighty-three years, three months and five days, passed away at his home in Jeffersontown Friday morning of last week at 3 o'clock of senility. Mr. Wheeler was one of the oldest and best known citizens of this section of the county. He had been a member of the Baptist church for sixty-five years, first joining with the Back Run church, in Jefferson county, but afterward joining the King's Baptist church in Bullitt county, being a member of this church for forty-nine years. Mr. Wheeler was born and reared in the Seatonsville neighborhood and lived a most exemplary life. He is survived by a son, W. A. Wheeler, of Jeffersontown. The funeral services were held at the Jeffersontown Baptist church last Saturday morning, conducted by Rev. Edgar Pound, of Bullitt county, after which the remains were laid to rest in Jeffersontown cemetery.

A Great Combination Offer.

By special arrangement with the Farm Journal, we are enabled to make an offer that will attract every subscriber who is interested in farming, stock or poultry-raising.

Every live farmer knows the Farm Journal. Three-quarters of a million of the most progressive and prosperous farmers take it now, which is more than subscribe to any other farm paper on earth.

It's not so big as some papers, mainly because it knows where to stop talking. Its motto is "Cream, not skim-milk." It doesn't print long-winded essays and articles that put you to sleep. It is often called "the boiled-down paper." It gives you more for the money than any other farm paper that we know of, and puts it into fewer words. It is always telling you about the things that need to be done now, so that a farmer who reads it regularly is not often behindhand with his work.

Everybody who once gets the habit of reading the Farm Journal is likely to keep right on, so the publishers don't take one-year subscriptions any more, but you can get it FIVE years for \$1.00, and TEN years for only \$1.50.

We have made arrangements by which we can offer to all subscribers the BALTIMORE SEMI-WEEKLY AMERICAN for one year and the FARM JOURNAL for FIVE years, BOTH for only \$1.25.

The Farm Journal people also publish a remarkable series of booklets, "Poultry Secrets," "Horse Secrets," "Corn Secrets," and others, that have made a great sensation. They don't sell these booklets separately, but only with subscriptions to the Farm Journal.

You can get any one of these booklets, with Farm Journal for four years, and the BALTIMORE SEMI-WEEKLY AMERICAN for one year, all THREE for \$1.25. If you send your order to us now with the money.

Do you know Peter Tumbledown? He is the old farmer that the Farm Journal tells about, who is always going to mend his roof, this coming Saturday, and get a blanket for his horse next week.

When you get a chance like the offer above, don't be a Tumbledown. Act.

Our Great Combination Offer.

The Farm JOURNAL is cheap, but not too cheap to be good. It is full of ginger and gumption. It gives more for the money, and puts it in fewer words, than any other farm paper. By special arrangement with the publishers we can give you the Farm Journal for five years and The Jeffersonian for one year, both for \$1.50, which is only a trifle more than the price of our paper alone. Send the order with the money to this office today.

Home Pay Station.

The home telephone recently installed in the office of The Jeffersonian is for public use and may be used by depositing 10 cents for Louisville calls and 5 cents for local calls. Parties desiring to call The Jeffersonian from Louisville over this phone will have free service.
